RE: State Certification of Federal High-Cost Support, CC Docket No. 96-45

To the Filing Representatives:

Below is a list of carriers¹ certified by the Public Utility Commission of Texas (Texas PUC) in accordance with 47 C.F.R. §§ 54.313 and 54.314,² which established an annual state certification process for those carriers that have received eligible telecommunications carrier (ETC) designation in Texas seeking high-cost support from the federal universal service fund. The Texas PUC certifies that all federal high-cost support³ provided to the following carriers in this state will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with § 254(e) of the Federal Telecommunications Act.

Eligible Telecommunications Carriers (ETCs) in Texas

1. Alenco Communications, Inc. d/b/a ACI (442090)
2. AMA TechTel (CLEC NR)⁴ (449020)
3. Big Bend Telephone Company, Inc. (442039)

¹ This list includes each carrier's study area code, if available, assigned by the National Exchange Carriers Association (NECA).

² See Federal Communications Commission's (FCC's) *Fourteenth Report and Order, Twenty Second Order on Reconsideration, and Further Notice of Proposed Rulemaking* in CC Docket No. 96-45, and *Report and Order* in CC Docket No. 00-256 (May 23, 2001).

³ This includes high-cost loop support, local switching support, high-cost model support, hold harmless support, and high-cost support received pursuant to the purchase of exchanges.

⁴ Any carrier on this list not identified as a competitive local exchange carrier (CLEC) is an incumbent local exchange carrier. Any carrier on this list that is not identified as "non-rural" (NR) is a "rural" carrier. The designations of "rural" and "non-rural" are federal designations obtained by the carrier through a federal self-certification process and are recognized solely for the purpose of federal USF support.

⁶ Vantage has not implemented service in Texas but anticipates doing so in calendar year 2004, and serving rural as well as non-rural exchanges in the state. Mr. W. Cullen Calloway, President of Vantage Systems, advised that Vantage has not yet been assigned a study area code by the Universal Service Administrator but is in the process of making its application for a study area code and the receipt of FUSF.

⁷ Verizon Southwest TXC (previously d/b/a Contel), and Verizon Southwest TXG (previously d/b/a GTE) still maintain separate tariffs and rates.
